

MANUEL'S TAVERN

Grapes And Grains

History of the Tavern

In 1956 Manuel Maloof bought Harry's Delicatessen, a sandwich and beer joint with a front of Stone Mountain granite and an interior of makeshift counters and fluorescent lights. Manuel transformed it into a neighborhood bar modeled on the taverns he had visited while stationed in England during the Second World War. He filled the Tavern with salvaged furnishings--mismatched chairs and tables, booths, lighting fixtures, wall paneling--from grand old homes and stores scheduled for demolition. Later, his brother Robert joined the business.

Manuel eventually served as the CEO of Dekalb County and became deeply involved in Democratic politics in Atlanta and Georgia. His political career dovetailed with the Tavern, which he said let him listen to the man on the street. He passed away in August of 2004. Still, he is fondly referred to as the "Godfather" of Georgia Democratic politics.

Although major political figures regularly drop by the Tavern, it is also a gathering place for blue-collar workers, the press, writers, actors, policemen, and just about anyone else you can imagine. The Tavern represents a true cross-section of the Atlanta community.

Manuel's Tavern is still owned and operated by the Maloof family.

† Oskar Blues Brewery, the creator of Gordon's IPA and Dale's Pale Ale, has won multiple awards for their canned craft beer, noting that their cans use a water-based coating, so beer never meets metal. Cans keep beer fresh longer by fully protecting it from light and oxygen; also, they're better for the environment, using less fuel to ship and being easier to recycle.
